From Humble Beginnings to Global Impact: The CoreCellent Story

Moizuddin Mohammad
CEO & Co-founder at Corecellent Technologies

Starting from a small part of a 10x12 ft room in 2014, Moizuddin Mohammad and Mohammad Abdullah had a vision that extended far beyond the confines of their modest beginnings. They aimed not only to create employment but also to build a company that consistently over-delivers for its clients, solves their problems, and works to their utmost satisfaction. This dream has been realized in the form of CoreCellent Technologies, a testament to their dedication and innovative spirit.

Moizuddin Mohammad, the CEO, and Mohammad Abdullah, the CTO, were deeply influenced by their father, Mohammad Rafeeuddin, a visionary electronic engineer. He always motivated them towards entrepreneurship. Their mother encouraged them to take stands and risks to face the challenges of life.

This combined, made them to take a path through entrepreneurship that believes in the concept of knowledge-sharing, team-building, networking and value-sharing which are the foundational pillars of CoreCellent Technologies. These values have guided the company's growth and continue to drive its mission and vision.

Today, CoreCellent Technologies is a multifaceted company offering Digital Marketing, E-Commerce, Web & Mobile App Development, and ERP Solutions. The company's growth trajectory shows no signs of slowing down, with plans to launch even more services in the near future. This diversification and expansion underscore the company's commitment to staying ahead of the curve and meeting the evolving needs of its clients.

One of the cornerstones of CoreCellent Technologies' success has been its passion for sharing knowledge. This passion materialized in CoreCellent Academy, a corporate online academy aimed at fostering continuous learning

and professional development. The academy is a hub for aspiring startups, professionals with practical training and internship programs.

With over 10+ years of industry presence, CoreCellent Technologies boasts a portfolio of over 500+ clients & 30+ partners globally as of 2024. This impressive client base is a testament to the company's ability to deliver high-quality services and maintain strong client relationships. The team at CoreCellent, composed of talented designers and developers, works tirelessly to uphold the company's reputation for innovation and excellence.

Corecellent Technologies is honoured to be a part of the success of their long-term clients like the ESI Government Hospitals, Chamber Commerce (KKCCI) and international clients like Abu Hatim Group (Oman), Arabian Huk (KSA).

The founder's strong commitment to applying their intellectual and physical abilities with innovative ideas has enabled CoreCellent Technologies to deliver high standards consistently. This commitment is evident in every project they undertake, ensuring that clients receive solutions that are not only effective but also innovative and forward-thinking.

As CoreCellent Technologies continues to grow and evolve, its founders remain focused on their original vision. They are dedicated to creating employment, sharing knowledge, and building a company that makes a positive impact on its clients and the broader industry. Their journey from a small part of 10x12 ft room to a global player in the tech industry is a powerful reminder of what can be achieved with vision, dedication, and a commitment to excellence.
